Affordable Care Act Health Insurance Marketplace Notice

The Georgia Department of Public Health is providing you this notice in accordance with the requirements of the Patient Protection and Affordable Care Act (ACA).

The federal government has established a “Health Insurance Marketplace” (also called an “exchange”) where citizens may obtain information and apply for health insurance provided by competing private insurers. If you would like additional information about the Health Insurance Marketplace, please call 1-800-318-2596 or visit <https://healthcare.gov/families/>.

Certain qualified persons purchasing health insurance from the Health Insurance Marketplace may be eligible for a tax credit in 2014. However, because the State Health Benefit Plan (SHBP) meets the Affordability Requirement under the Affordable Care Act, DPH employees who are eligible for health insurance from the SHBP generally will not be eligible for that tax credit.

Persons purchasing health insurance from the Health Insurance Marketplace will lose the employer contribution (if any) to any health benefits plan offered by their employer.

We Protect Lives.
